

State vs. federal Citizenship; The Unknown Choice **LIVE** IN NEW HAMPSHIRE with Christopher Gronski

How would it be for you; if you could increase your income by 25 to 30%?

This Annual LIVE class on Federal Jurisdiction Presented by **Christopher Gronski** of **DestinationFreedom.org** will show you who has a federal income tax liability and why. Did you know the federal income tax is constitutional but is limited to U.S. (federal) citizens and resident aliens? Is this you?

This is a class about **Federal JURISDICTION**. You may not realize that **Who You Say You Are, Where You Say You Live, Where You Say You Work and What Kind of Work You Do**, either puts you under the Federal or State government's jurisdiction or keeps you Free from their regulation and control. Find out why that is... You can also determine if you have a Federal Income Tax Liability (requirement). This class will help you understand the difference between State and Federal Citizenship and is **the basis for determining if you would like to obtain a United States Passport**, establishing your State Citizenship rather than a Federal or U.S. (14th Amendment) citizenship. This is NOT about giving up your Rights or your Birthright Citizenship. **The Cost for this Class is \$400.**

If you have already taken this class, you may participate for \$30. If you enroll a new Student there is no cost to you.

If you sign up for the "Full Passport Assistance" this LIVE Class is included at no extra cost. (\$4,500) Christopher will be with you to begin your process. Be sure to bring your current Passport Book and Card (If you have one), your Birth Certificate and Driver's License.
